

TESTIMONIAL

12/20/2022

To whom it may concern,

XENON'S High Performance Pulsed Light Systems have heightened interest amongst our customers and prospects for non-chemical sanitization of Yogurt cups. Our customers are communicating their full acceptance and appreciation of XENON'S PurePulse™ Technology. As Xenon manufactures their own lamps, custom lamp designs can be readily turned around, something we find most helpful. I am pleased to say we have received multiple machine system orders for Yogurt cup sanitization using XENON's pulsed light systems. We are very happy with XENON and the pulsed light equipment they provide and look forward to more orders coming in. Trust me, you too will be rolling in praise.

A handwritten signature in blue ink, appearing to be 'DK', written over a horizontal line.
